DIALOGUE 20
SUMMIT & EXPO 22

LET'S MAKE THE FUTURE HAPPEN

Conference Program

September 21–22, 2022
Exhibition Centre Nuremberg & online

Bavarian Ministry of Economic Affairs,
Regional Development and Energy

H2.B ZENTRUM
WASSERSTOFF.
BAYERN

NÜRNBERG MESSE

Welcome to HYDROGEN DIALOGUE 2022

Ladies and Gentlemen,

A very hearty welcome to HYDROGEN DIALOGUE 2022 – Summit & Expo!

Climate change – the energy supply – the transformation of mobility: hydrogen may be the answer to the three great challenges of our times. This is where HYDROGEN DIALOGUE has the important task of bringing leaders in business, science and government together. And following two digital editions that were compelled by the pandemic, this year for the first time we're also meeting in person here in Nuremberg.

From the very start, HYDROGEN DIALOGUE has benefitted from an established network of organizations in hydrogen research and the hydrogen industry in Bavaria – which makes Nuremberg an ideal site for the event. On top of that, HYDROGEN DIALOGUE 2022 is enjoying a substantial surge in internationality. This time we have presenters and delegations from all over the world, including Australia, Brazil, Chile, Colombia, Scotland and the Netherlands.

Prof. Dr Roland Fleck, CEO, NürnbergMesse Group

But if successful research is also going to give rise to sustainable business models, private-sector investment has got to become involved. And that's the focus of two side events that will be accompanying us for the first time, VDE FINANCIAL DIALOGUE HYDROGEN 2022 and EUROPEAN HYDROGEN TRANSPORT DIALOGUE.

We owe this year's diverse program of eminent presenters to a strong team at NürnbergMesse, and to our conceptual partner, Center Hydrogen.Bavaria. And I want to include that Center, together with Professors Grimm and Wasserscheid, in our thanks.

NürnbergMesse would also like to warmly thank Minister Hubert Aiwanger, whose Bavarian Ministry of Economic Affairs, Regional Development and Energy is once again the patron of this third edition of HYDROGEN DIALOGUE.

And now I hope all of you who are attending will enjoy a very successful event.

A handwritten blue ink signature of the name "Roland Fleck".

for a warm welcome
from Marcus König,
Lord Mayor of the
City of Nuremberg

Dr Fabian Pfaffenberger, Managing Director,
Zentrum Wasserstoff.Bayern (H2.B)

A warm welcome!

This year's HYDROGEN DIALOGUE is taking place among major upheavals. Russia's war of aggression against Ukraine has shown us how crucial it is to have a diversified, resilient energy supply. Meantime, we're also coming more and more often to see and experience the direct and indirect consequences of climate change ourselves.

So it's more urgent than ever for us to get our entire energy system onto a sustainable basis. The war in Ukraine and climate change are causing big changes, and not just in Germany. They face us all with the special challenge of managing both the energy crisis and the energy transformation at the same time.

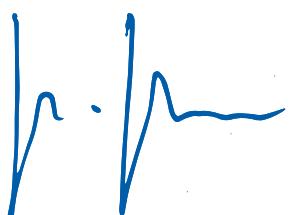

But as we know, every crisis is also an opportunity. Hydrogen is going to play an important part in a climate-neutral energy system – as an energy vector and storage medium, as a raw material and fuel, and as a component in the sustainable transformation of the economy. Our innovative strength, our know-how and our technologies give us what we need to overcome the challenges ahead.

Zentrum Wasserstoff.Bayern (H2.B) – Center Hydrogen.Bavaria – is the entity that assists with strategy and coordination for hydrogen in this state. It supports the industry's many innovative companies and research institutions by providing information, advice and national and international networking. The Bavarian Hydrogen Alliance is a partnership of more than 280 Bavarian-based players across the entire hydrogen value chain – the biggest state-sponsored hydrogen cluster in Germany.

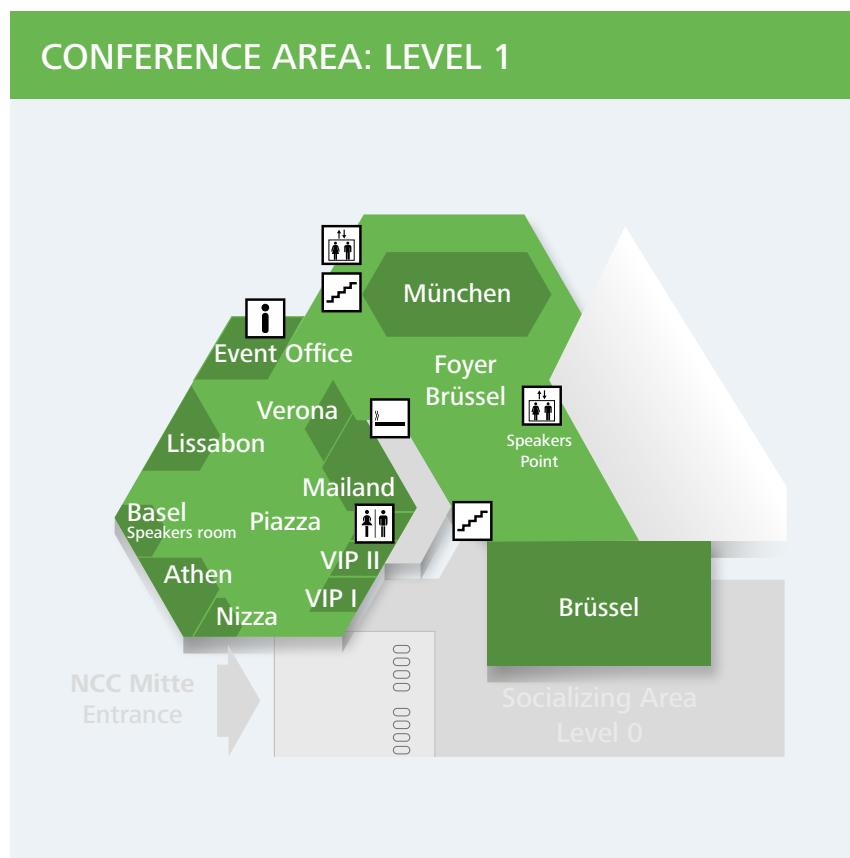

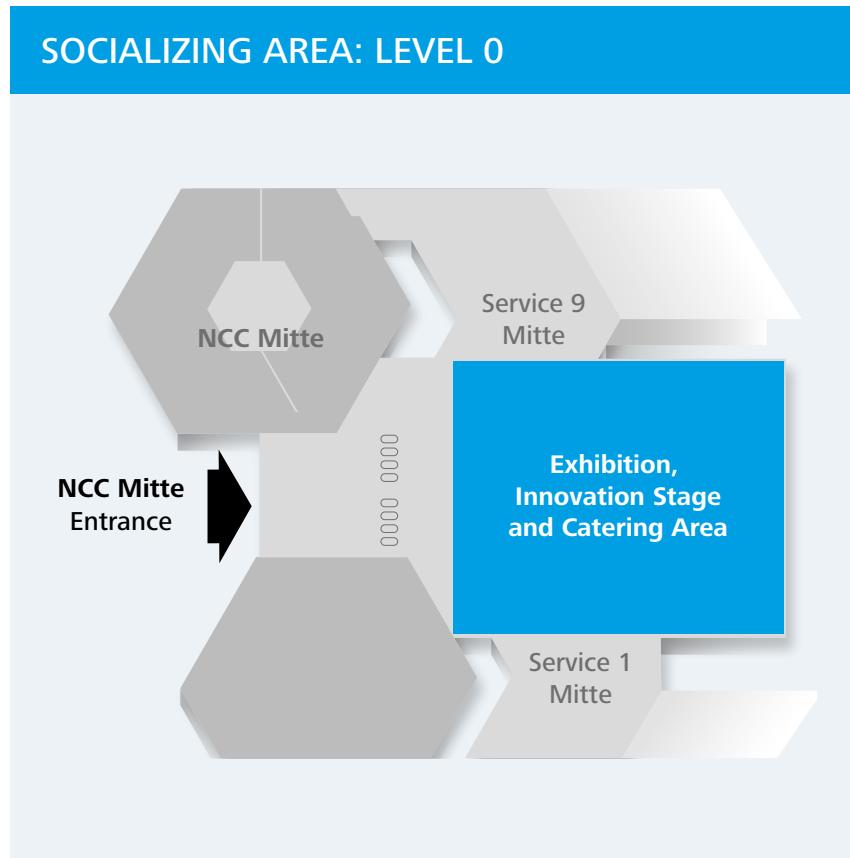

But the job will take more than strong innovation and strong networks. It calls for a pragmatic mindset that goes beyond idealism – accompanied by an unshakeable determination and courage to help shape the future. Not to mention a close interplay among industries, research disciplines, political parties and countries.

Working with our strong partner NürnbergMesse, we've established that kind of platform in Bavaria: HYDROGEN DIALOGUE. True to the event's slogan, "From the Hydrogen Economy. For the Hydrogen Economy", national and international experts and decision-makers are gathering in Nuremberg alongside a great many high-tech companies.

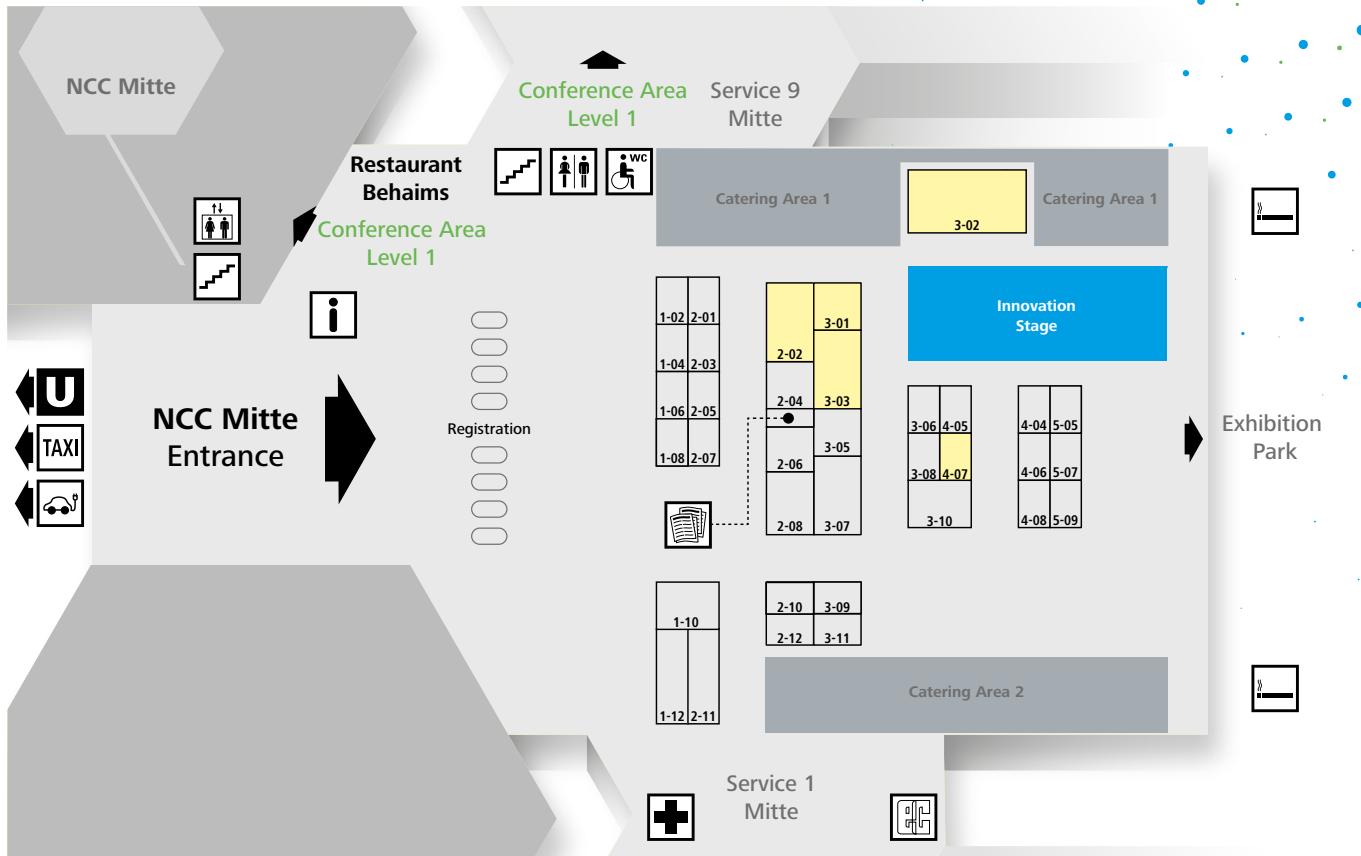

Let's get talking together in depth about hydrogen – at HYDROGEN DIALOGUE in Nuremberg.

Event Overview

Program Overview

SEPTEMBER 21, 2022

Hall Brüssel

10:00 a.m. – 5:45 p.m. **Hybrid Stage I:**
Keynotes, Discussions and Talks

Topics: Security of Supply Through Hydrogen – The Key to the Energy System of the Future, Hydrogen Ramp-up in Germany, Centralized and Decentralized Production, Infrastructure and Storage

Hall München

10:00 a.m. – 5:45 p.m. **Hybrid Stage II:**
Keynotes, Discussions and Talks

Topics: Security of Supply Through Hydrogen – The Key to the Energy System of the Future, International Markets for H₂

Piazza, Room Mailand, Room Athen, Room Lissabon

EUROPEAN HYDROGEN TRANSPORT DIALOGUE

10:00 – 11:00 a.m. **Welcome**

11:00 a.m. – 12:00 p.m. **Pitch Sessions I, II, III**

1:30 – 2:30 p.m. **Pitch Sessions IV, V, VI**

Innovation Stage*

12:30 – 2:30 p.m. **Program DVGW**

3:30 – 4:30 p.m. **Program hy+
Wasserstoff-Metropolregion Nürnberg**

4:30 – 5:30 p.m. **Program now GmbH**

Restaurant Behaims

12:00 – 1:30 p.m. **Executive Lunch (Invitation only)**

Socializing Area

5:45 – 9:00 p.m. **Get-together**

SEPTEMBER 22, 2022

Hall Brüssel

10:00 a.m. – 4:00 p.m. **Hybrid Stage I:**
Keynotes, Discussions and Talks

Topics: Import and Logistics, Innovation and Financing, Hydrogen for Energy-Intensive Industries

Hall München

10:00 a.m. – 4:00 p.m. **Hybrid Stage II:**
Keynotes, Discussions and Talks

Topics: Mobility, Heat Market, H₂ Value Added for the Regions

Innovation Stage*

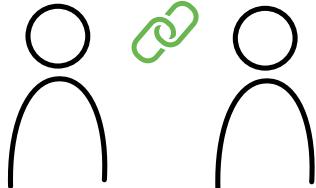

10:00 a.m. – 3:00 p.m. **VDE FINANCIAL DIALOGUE
HYDROGEN 2022**

Hall Brüssel

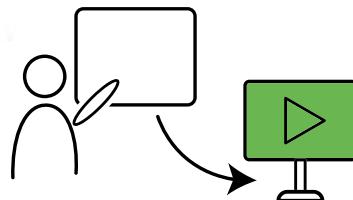

4:00 – 6:00 p.m. **Plenary Meeting of the Hydrogen
Alliance Bavaria (Invitation only)**

* The program on the Innovation Stage is only available in German.

Program

SEPTEMBER 21, 2022

MAIN STAGES WITH KEYNOTES, LECTURES AND

Hall Brüssel

10:00 a.m. – 12:00 p.m.	Session Topic: Security of Supply Through Hydrogen – The Key to the Energy System of the Future
	<i>Jürgen Pfeiffer</i>
10:00 – 10:15 a.m.	Official Opening
	<i>Prof. Dr. Roland Fleck, CEO NürnbergMesse Group Dr. Michael Fraas, Economics and Science Officer of the City of Nuremberg Prof. Dr. Veronika Grimm, Board of Directors, Zentrum Wasserstoff.Bayern (H2.B)</i>
10:15 – 10:30 a.m.	Security of Supply Through Diversification – Effects of the Geopolitical Situation on the Importance of Hydrogen as an Energy Source in Bavaria
	<i>Hubert Alwanger, Bavarian State Minister for Economic Affairs, Regional Development and Energy</i>
10:30 – 10:50 a.m.	Green Hydrogen as an Economic Opportunity for Partner Countries
	<i>Philip Green, Australian Ambassador to Germany, Switzerland and Liechtenstein Irene Vélez, Minister of Mines and Energy of Colombia</i>
10:50 – 11:30 a.m.	Security of Supply Through Diversification – Effects of the Geopolitical Situation on the Importance of Hydrogen as an Energy Source
	<i>Dr. Carsten Rolle, Executive Director, Weltenergeter Deutschland Dr. André Wolf, Head of Department Technology, Infrastructure and Sustainable Development, Centre for European Policy</i>
11:30 a.m. – 12:00 p.m.	Are There Enough Pipes? Hydrogen Infrastructure in Europe
	<i>Piotr Kus, Director General, ENTSOG Prof. Dr. Gerald Linke, CEO, DVGW e.V.</i>
12:00 – 1:30 p.m.	LUNCH BREAK

Hall Brüssel

1:30 – 3:20 p.m.	Session Topic: Hydrogen Ramp-up in Germany
	<i>Jürgen Pfeiffer</i>
1:30 – 2:20 p.m.	Transition Scenarios After the Coal and Nuclear Phase-Out and the Importance of Hydrogen as "Coal of the Future" – Will We Manage to Achieve the Climate Targets in 2050?
	<i>Prof. Dr. Christopher Hebling, Division Manager Hydrogen Technologies, Fraunhofer ISE Dr. Steffen Kahlert, Senior Project Development Manager Hydrogen, E.ON SE Dr. Holger Kretz, COO Asset Management, Uniper SE Sönke Tangermann, CEO, Green Planet Energy</i>
2:20 – 3:20 p.m.	Hydrogen – Hype or Driver for a Sustainable Future?
	<i>Prof. Dr. Veronika Grimm, Board of Directors, Zentrum Wasserstoff.Bayern (H2.B) Ralf Großhauser, CEO, Zeppelin Power Systems GmbH Dr. Thomas Hüwener, Member of the Board of Directors, Open Grid Europe GmbH Dr. Wilfried Kölscheid, Senior Vice President – Solid Oxide Fuel Cell (SOFC), Robert Bosch GmbH Prof. Dr. Thomas Thiemann, Senior Vice President for Energy Transition Technologies, Siemens Energy Global GmbH & Co. KG</i>
3:20 – 3:30 p.m.	COFFEE BREAK
3:30 – 4:45 p.m.	Session Topic: Centralized & Decentralized Generation
	<i>Jürgen Pfeiffer</i>
3:30 – 3:50 p.m.	Green Hydrogen on Multi Megawatt Scale
	<i>Alexander Detke, Sales Manager, H-TEC Systems</i>
3:50 – 4:25 p.m.	Gigawatt Scaling – H₂ Generation and Production in 2025
	<i>Dr. Stefan Gossens, Vice President Hydrogen Strategy, Schaeffler Technologies AG & Co.KG Holger Lösch, Deputy Managing Director, Bundesverband der Deutschen Industrie e.V. Dr. Sylvia Schattauer, Acting Director of Institute, Fraunhofer-Institut für Windenergiesysteme IWES</i>
4:25 – 4:45 p.m.	Rethinking Alkaline Electrolysis
	<i>Dr. Jan Gustav Grolig, COO, Stargate Hydrogen Solutions</i>
4:45 – 5:05 p.m.	Decentralized Hydrogen Economy in the District
	<i>Andreas Kuhlmann, Chairman of the Management Board, Deutsche Energie-Agentur GmbH (dena)</i>
5:05 – 5:45 p.m.	Session Topic: Infrastructure & Storage
	<i>Jürgen Pfeiffer</i>
5:05 – 5:45 p.m.	H₂ Infrastructure: The Path of Hydrogen to the Customer
	<i>Bob Busser, Managing Director, HyDevCo BV Michael Dammann, CEO, Gasnetz Hamburg GmbH Sybille Riepe, Communication Manager, H2 Mobility Deutschland GmbH & Co.KG</i>

■ Deutsch ■ English

All German language lectures will be simultaneously translated into English.

D PANEL DISCUSSIONS

Hall München

1:30 – 3:40 p.m.	Session Topic: International Markets for H₂ <i>Carina Bastuck</i>
1:30 – 1:50 p.m.	Status Quo of the Regional H₂ Strategy <i>Dominique Deschênes, Associate Deputy Minister – Innovation and Energy Transition, Québec Ministry of Energy and Natural Resources</i>
1:50 – 2:10 p.m.	Strategic Partnerships for Hydrogen Export: Energy Imports to Germany <i>Ivan McKee, Scottish Government Minister for Business, Trade, Tourism and Enterprise, Scottish Government</i>
2:10 – 2:30 p.m.	Role of Hydrogen Within Colombia's Energy Transition <i>Irene Vélez, Minister of Mines and Energy, Colombia</i>
2:30 – 3:10 p.m.	Hydrogen Hub for Production and Export <i>Katherine Orozco, Team Leader Hydrogen, Ecopetrol Juan Ricardo Ortega, President, Grupo Energía de Bogotá César Augusto Ramírez Rojas, Member of the Governing Board, ISA Group Prof. Dr. Peter Wasserscheid, Chair for Chemical Reaction Technology, Friedrich-Alexander-Universität Erlangen</i>
3:10 – 3:40 p.m.	Brazil – How to Become a Red Dot in the Hydrogen Map <i>Dr. Claudia Bärmann Bernard, Legal Officer at Câmara de Comércio e Indústria Brasil, Alemanha and Representative of the State of Bavaria in Brazil Constantino Frate, Green Hydrogen Supply Chain, Energy Transition and Public Policies Development Coordinator in Ceará State Government Martin von Simson, Managing Partner, Giua Marítimo Renato Arruda Vaz de Oliveira, Policy Cooperation Coordinator, Federal Agency for the Promotion of Investments in the Northeast of Brazil</i>
3:40 – 3:55 p.m.	COFFEE BREAK
3:55 – 5:45 p.m.	Session Topic: International Markets for H₂ <i>Carina Bastuck</i>
3:55 – 4:15 p.m.	Argentina's Roadmap Towards a National Hydrogen Strategy 2030 <i>Fernando Brun, responsible for RR.II. Secretaría de Asuntos Estratégicos</i>
4:15 – 4:35 p.m.	Chile: Green Energy Provider in South America <i>Magdalena Atria, Ambassador of the Republic of Chile</i>
4:35 – 4:50 p.m.	Progress in the implementation of Chile's green hydrogen agenda <i>Chilean Ministry of Energy</i>
4:50 – 5:05 p.m.	With Wind to the Hydrogen Ramp-up: Chile's Project HIF <i>Thorsten Herdan, CEO, HIF Global</i>
5:05 – 5:25 p.m.	Energy Around the Globe – Australia's Long-term Supply Contracts for Green Hydrogen <i>Sara Edmonson, Regional Lead Europe & UK, Fortescue Future Industries Pty Ltd</i>
5:25 – 5:45 p.m.	Focus Japan – H₂ Roadmap: Working Towards a Sustainable, Decarbonized Society <i>Shahrad Adjili, Area Sales Manager, Kawasaki Gas Turbine Europe GmbH</i>
Until 6:15 p.m.	BREAK

PROGRAM GET-TOGETHER

Innovation Stage

6:15 – 6:35 p.m.	Strategies and Instruments for a Long-term System Transformation (German Only) <i>Christof Timpe, Leitung Bereich Energie & Klimaschutz, Öko-Institut e.V.</i>
From 6:35 p.m.	Elevator Pitches of the Top 5 Projects of the EUROPEAN HYDROGEN TRANSPORT DIALOGUE

Program

SEPTEMBER 22, 2022

Hall Brüssel

10:00 – 11:45 a.m.	Session Topic: Import & Logistics Jürgen Pfeiffer
10:00 – 10:40 a.m.	Import Strategies for Germany <i>Matthias Schimmel, Managing Consultant, Energy, Sustainability and Infrastructure, Guidehouse Germany GmbH</i> <i>Dr. Markus Schöffel, Head of Government and Regulatory Affairs, Tree Energy Solutions GmbH</i> <i>Dr. Kirsten Westphal, Executive Director, H2Global Stiftung</i> <i>Prof. Dr. Martin Wietschel, Head of the Competence Center Energy Technology and Energy Systems, Fraunhofer ISI</i>
10:40 – 11:00 a.m.	Building Global Hydrogen Value Chains With LOHC <i>Maurice Delattre, Area Manager Germany and Central Europe, Port of Amsterdam</i> <i>Dr. Andreas Lehmann, Head of Strategy & Implementation, Hydrogenious LOHC Technologies</i>
11:00 – 11:45 a.m.	Ports: Interface for Import, Export, Storage and Distribution of Hydrogen <i>Juan Carlos Acosta, Manager Contecar, Port of Cartagena Group</i> <i>Erik Bertholet, Business Manager Offshore Wind & Logistics, Port of Eemshaven / Groningen Seaports</i> <i>Ingo Fehrs, Strategy and External Affairs, Head of Sustainability and Environmental Affairs, Hamburg Port Authority AöR</i> <i>Alexander Garbar, Head of Corporate Development and Strategy, Duisburger Hafen AG</i> <i>Joachim Zimmermann, CEO, bayernhafen N.N., Port of Rotterdam</i>
11:45 a.m. – 12:00 p.m. COFFEE BREAK	

■ Deutsch ■ English

All German language lectures will be simultaneously translated into English.

MAIN STAGES WITH KEYNOTES, LECTURES AND DIALOGUE

Hall Brüssel

12:00 – 1:40 p.m.	Session Topic: Innovation & Financing Jürgen Pfeiffer
12:00 – 12:30 p.m.	Innovations for the Global Hydrogen Economy <i>Jorgo Chatzimarkakis, CEO, Hydrogen Europe</i> <i>Dr. Stefan Kaufmann, Consultant Hydrogen, thyssenkrupp AG</i>
12:30 – 12:50 p.m.	Hydrogen Having a Key Role in the Energy Transition?! Which Companies Can Take on this Role? Assessment of a Global Investor <i>Manfred Wiegel, CEO, green benefit AG</i>
12:50 – 1:40 p.m.	Financial Support and Subsidies for a Global Hydrogen Economy <i>Dr. Dirk Bessau, Head of Energy and Climate Division, Projektträger Jülich, Forschungszentrum Jülich GmbH</i> <i>Martin Gustavo Ibarra Pardo, CEO, Araújo Ibarra</i> <i>Uwe Weichenhain, Partner, Roland Berger GmbH</i>
1:40 – 2:30 p.m.	LUNCH BREAK
2:30 – 3:50 p.m.	Session Topic: Hydrogen for energy intensive industries Jürgen Pfeiffer
2:30 – 2:50 p.m.	Hydrogen Use in the Thermoprocessing Industry <i>Dr. Anne Giese, Head of Department for Industrial and Combustion Technology, Gas- und Wärme-Institut Essen e.V.</i>
2:50 – 3:10 p.m.	Paper Industry: Hydrogen as a Building Block in the Transformation to Carbon Dioxide Free <i>Thorsten Becherer, Managing Director and Site Manager, Essity GmbH</i>
3:10 – 3:30 p.m.	The Role of CO₂ Capture in the Rohrdorf Cement Plant in a Carbon-Circular-Economy <i>Dr. Philipp Stadler, Process Engineer, Rohrdorfer Zement</i>
3:30 – 3:50 p.m.	Innovation and Bankability as a Prerequisite for Sustainable Business Cases in the Hydrogen Economy <i>Josef Glasl, CEO, URKERN Gesellschaft für Urbanes GmbH</i> <i>Burkhard Holder, CEO, VDE Renewables GmbH</i>
3:50 p.m.	End of HYDROGEN DIALOGUE 2022

D PANEL DISCUSSIONS

Hall München

10:00 – 11:40 a.m.	Session Topic: Application mobility <i>Carina Bastuck</i>
10:00 – 10:20 a.m.	Large-scale Production of Fuel Cell Stacks for CO₂-neutral Mobility <i>Lars Johannson, COO, cellcentric GmbH & Co. KG</i>
10:20 – 11:00 a.m.	The Role of Hydrogen in the Mobility Sector <i>Murat Aydemir, General Manager Hydrogen Storage Systems, Faurecia Clean Mobility (FORVIA Group)</i> <i>Josef Paul, CEO, Josef Paul GmbH & Co. KG</i> <i>Frank Sreball, CEO, Hyundai Hydrogen Mobility Germany GmbH</i>
11:00 – 11:20 a.m.	Green Transformation – With Hydrogen Trains on the Rails <i>Nina Guckes, Platform Manager Hydrogen Trains, Siemens Mobility GmbH</i>
11:20 – 11:40 a.m.	Hydrogen Fuel Cells – Already a Sustainable Energy Supply Today <i>Björn Ledergerber, Senior Vice President Hydrogen & Corporate Development, SFC Energy AG</i>
11:40 a.m. – 12:00 p.m. COFFEE BREAK	
12:00 – 1:30 p.m.	Session Topic: Application heat market <i>Carina Bastuck</i>
12:00 – 12:20 p.m.	Hydrogen Potential in the Heat Market <i>Dr. David Bothe, Director, Frontier Economics Ltd.</i>
12:20 – 12:40 p.m.	Vienna Hydrogen Story: Lighthouse Projects from Production to the End User <i>Michaela Leonhardt, Leiterin Team Wasserstoff, Wien Energie GmbH</i>
12:40 – 12:55 p.m.	H₂Direkt: 100% Hydrogen in Future Gas Grids to the End Customer <i>Michael Schneider, CEO, Energienetze Bayern GmbH & Co. KG</i>
12:55 – 1:30 p.m.	Hydrogen as a Component of the Heat Transition <i>Jürgen Haindl, First Mayor, Markt Hohenwart</i> <i>Eva Hennig, Head of Brussels Office, Thüga AG</i> <i>Alexander Schuh, Head of Association Management, Head of Hydrogen Projects, Vaillant Deutschland GmbH & CO KG</i>
1:30 – 2:30 p.m.	LUNCH BREAK

Hall München

2:30 – 3:50 p.m.	Session Topic: H₂ Value for the Region <i>Carina Bastuck</i>
2:30 – 2:50 p.m.	Green Hydrogen for Bavaria and Beyond <i>Dr. Christoph Stiller, Head of Business Development, Tyczka Hydrogen GmbH</i>
2:50 – 3:30 p.m.	Refineries: H₂ as a Driver of CO₂-free Technologies <i>Andreas Maier, Representative South, en2x Wirtschaftsverband Fuels und Energie e.V.</i> <i>Ralf Seid, CEO, Gunvor Raffinerie Ingolstadt GmbH</i> <i>Dr. Alexander Struck, CEO, Bayernoil Raffineriegesellschaft mbH</i>
3:30 – 3:50 p.m.	RHYME Bavaria: From Green Hydrogen to Renewable Methanol <i>Dr. Peter Gigler, Head of Corporate Sustainability, Wacker Chemie AG</i>
3:50 p.m.	End of HYDROGEN DIALOGUE 2022

Status of program: September 05, 2022. Subject to change.

EUROPEAN HYDROGEN TRANSPORT DIALOGUE

The European Hydrogen Financing Forum and the HYDROGEN DIALOGUE – Summit & Expo have joined forces to promote the financing of innovative ideas and projects in the field of hydrogen transport. Here, investors from all over Europe meet the most innovative and promising European ventures.

The EUROPEAN HYDROGEN TRANSPORT DIALOGUE is one of the stops of the European Hydrogen Financing Forum's pan-European road show and is embedded in the HYDROGEN DIALOGUE, the meeting place for the hydrogen economy along the entire value chain.

TOPICS

- Transport & Mobility
- Hydrogen Fuelling Solutions
- Hydrogen Commercial Vehicle Solutions
- Hydrogen Logistic Hub Solutions
- Hydrogen Trains, Ships and Aircraft

JOIN THE COMMUNITY OF GREEN HYDROGEN INDUSTRY LEADERS IN BRAZIL

HYDROGEN DIALOGUE LATIN AMERICA - BRAZIL EDITION

November 9th and 10th, 2022

São Paulo, Brazil - In person or online

Learn how you can be part of this new market that has a potential investment of USD 200 billion in Brazil over 20 years.

GO TO THE WEBSITE →

Participate online or in person:

+55 11 94075-5774

MAIN TOPICS OF THE EVENT:

-  Everything you need to know about Brazilian green hydrogen production, transportation, storage, and importing.
-  Get to know a map of players in this sector and market in Brazil and understand with whom you need to connect to carry out long-term partnerships.
-  The Brazilian government views and projects for the construction of a green hydrogen sector in Brazil - Legal, institutional and regulatory frameworks.
-  Financing and assurance for long-term investments.

-  The cooperation between Brazil and Germany to ensure a long-term energy supply.
-  Locations present their potential to become global hubs for the production and export of green hydrogen to Europe – Suape-PE, Porto do Açu-RJ e Pecem-CE.
-  Technological routes and solutions in Brazil for the green hydrogen production, transport, storage, and export.
-  "Made in Brazil" innovations and building an ecosystem of startups and cooperation.

Innovation Stage (IN GERMAN ONLY)

A SILENT CONFERENCE IN OUR SOCIALIZING AREA
PLANNED AND ORGANIZED BY INNOVATIVE PARTNERS

SEPTEMBER 21, 2022

DVGW H2-READY – PROJEKTEINBLICKE

12:30 – 12:50 p.m. Quo vadis H₂ Readiness in Europa

Tobias Weide, Project Manager – ERIG,
European Research Institute for Gas and Energy
Innovation (ERIG)

12:50 – 1:10 p.m. Woher soll all der Wasserstoff kommen?

Frank Gröschl, Leiter Technologie
und Innovationsmanagement, DVGW e.V.

1:10 – 1:30 p.m. H₂ Infrastruktur Neubau und Umstellung
von Netzen – Regelwerk und DVGW
H₂ Datenbank

Björn Munko, Leiter Gastechnologien
und Energiesysteme, DVGW e.V.

1:30 – 1:50 p.m. Ergebnisse des DVGW-Leitprojektes
Roadmap Gas 2050

Dr. Frank Graf, Bereichsleiter Gastechnologie,
DVGW-Forschungsstelle am Engler-Bunte-Institut (EBI)
des Karlsruher Instituts für Technologie (KIT)

1:50 – 2:10 p.m. H₂-Zertifizierungsprogramme

Jürgen Gössl, Leiter Geschäftsbereich Produkte,
DVGW CERT GmbH

2:10 – 2:30 p.m. Vom Regelwerk in die Praxis: Wasserstoff
in der DVGW Beruflichen Weiterbildung

Peter Preuss, Leiter Bildungsberatung,
DVGW Berufliche Bildung

PROGRAM HY+ WASSER- STOFF-METROPOLREGION NÜRNBERG

3:30 – 4:30 p.m.

Nachhaltigkeitskriterien
für die Wasserstoffproduktion

In der Diskussionsrunde der Wasserstoff-Metropolregion
Nürnberg hy+ wird erörtert, wie Kriterien für eine
nachhaltige Wasserstoffproduktion im In- und Ausland
aussehen könnten und wie deren Einhaltung
gewährleistet werden kann.

PROGRAM NOW GMBH

4:30 – 5:30 p.m.

VDE FINANCIAL DIALOGUE HYDROGEN 2022

10:00 – 10:10 a.m. Einleitende Worte und Housekeeping

Burkhard Holder, VDE Renewables

Block 1: Marktanalyse, Stand der Technik und Ausblick

10:10 – 10:30 a.m. Die Entwicklung der Wasserstoffwirtschaft – eine Bestandsaufnahme mit aktuellen Kennzahlen zum Markt

Christopher Martens, McKinsey & Partner

10:30 – 10:50 a.m. Wasserstoff, die Brücke zu grünem Strom – Grüne Energiesysteme funktionieren anders als fossile

Prof. Werner Tillmetz, Universität Ulm

10:50 – 11:10 a.m. Stand der Technologie – Forschungsstand, Kommerzialisierung, Innovationsradar

Ulf Groos, Fraunhofer ISE

12:10 – 12:30 p.m. BREAK

Block 3: Finanzierungsmodelle, Rechtlicher Rahmen und Accelerator

12:30 – 12:50 p.m. Anforderungen an die Wasserstoffindustrie – Business Cases, Bewertungskriterien, Risikominimierung

Rudolf Hilti, THE HUS

12:50 – 1:10 p.m. Nachhaltige Versicherung von Wasserstoff – Anforderungen an Technologie und Risikomanagement von Wasserstoffsystemen

Patrick Hinze, Munich Re

1:10 – 1:30 p.m. Impuls aus der Rechtsberatung für die Wasserstoffwirtschaft – Rechtsrahmen und Praxisanwendung

Michael Grabau, LPA-GGV

1:30 – 1:50 p.m. Entwicklung von europäischen industriellen Wertschöpfungsketten rund um grünen Wasserstoff

Dr. Markus Forstmeier, InnoEnergy

1:50 – 2:10 p.m. Institutionelles Kapital für die Wasserstoffwirtschaft – Eigenkapital für Unternehmen und den Markthochlauf

Marcel D. Werner, SENCO Hydrogen Capital

Block 2: Best Practices und Lessons Learnt aus der Industrie

11:10 – 11:30 a.m. Rahmenbedingungen und Herausforderungen der Wasserstoffprojekte – Ganzheitliche Projektanalyse zur effizienten Lenkung des Investitionsflusses

Natalia Westhäuser, Profas Energy Consult, FiveT Hydrogen

11:30 – 11:50 a.m. Auf dem Weg zum großflächigen Betrieb von Wasserstofftankstellen – Stand der Technologie, Lessons Learnt, Standardisierung, Qualitätssiegel

WEH

*Power
to the
People*

Produce, store and use hydrogen yourself.

We offer building owners, companies and research institutions cost-effective and individual solutions around hydrogen production and storage.

We analyze your needs and develop the hydrogen solution that suits you best.

- H2-Onsite | Local hydrogen production
- H2-Battery | Seasonal energy storage
- H2-Mobility | Intralogistics
- H2-O2 | Hydrogen plus oxygen utilization
